TECHNICAL DATA: PRO POLISH

PRO POLISH

PRO POLISH- is a high Gloss Non yellowing acrylic floor polish for use on sealed concrete floors. It dries to a high gloss finish and can be maintained by spray buffing.

PRO POLISH contains no not toxic metals or butyl solvents and has low VOC's

Applications

PRO POLISH – is used to maintain floors in a brilliant polished condition. All types of sealed concrete floors will improve their appearance and decrease maintenance cost with PRO POLISH.

Benefits Of PRO POLISH

1. PRO POLISH produces a beautiful high gloss wet look shine upon drying without buffing
2. PRO POLISH will buff up to a shine using simply spray buffing with a mixture of one part PRO POLISH and three parts water .
3. PRO POLISH is not harmed repeated scrubbing with a neutral detergent or damp mopping between buffing
4. PRO POLISH-will restore worn areas by re-coating with PRO POLISH Spray buffing will blend in the re-coated areas
5. PRO POLISH is slip resistant and meets ASTM D-2407
6. COVERAGE- One Gallon Covers 1200sqft

How to Use

Remove old polish by scrubbing with PRO CLEAN, rinse floor well and let dry. Spread PRO POLISH in a thin coat over the floor using a lambs wool applicator or a clean yarn mop. Allow to dry for 25-30 minutes. Apply a second coat and allow to dry before allowing traffic on floor

Buffing

Dilute PRO POLISH 1part to 3 parts water. Using a trig mist sprayer, mist lightly over a 10sqft area and buff with a polishing pad until a brilliant shine appears.

Maintenance

Occasional damp mopping with a neutral detergent

Properties

Type: Acrylic
Color: colorless
Odor: very mild
Toxicity: non Toxic
VOC's: Low
Flammability: Nonflammable
PH 8.5-8.9
